

**K-9 Search and Rescue of Kansas'** services and skills are available upon request, free of charge, to any community who needs help in finding lost or missing people. We do not self-deploy. K-9SARK works with any law enforcement or emergency management agency that requests our services, and we train hard to integrate with an agency's existing Incident Command structure.

K-9SARK is a 501(c)3 all-volunteer not-for-profit corporation. None of our volunteers are paid for their services and depend on donations, charitable contributions, and grant opportunities to pay for the expenses incurred to get K-9 teams operational and available for Search and Rescue work.

For more information about K-9 SARK, Inc., please contact:
